NATIONAL PENSION SCHEME AUTHORITY

SOCIAL SECURITY CONTRIBUTIONS TABLE FOR THE PERIOD 1ST JANUARY TO 31ST DECEMBER, 2016

1.0 *Definitions*

1.1 *Earnings:*

This term refers to any benefit whatsoever given by an employer in exchange for the employee's service whether contractually explicit or implied, orally or in writing. It does not matter what earnings are called in the case of a particular member-fees, commissions, bonuses, salary. Earnings may be paid in kind, cash, credit or securities, as favourable terms for loans, purchase options, or accommodations, including any allowance paid by the employer to the employee, either directly or by implication, with regard to the cost of living and any payment of wages by way of severance benefit upon termination of employment paid to an employee under an actual or implied contract of service or apprenticeship. Earnings may be paid, as the case may be or agreed to be paid, at fixed or determinable intervals of time or calculated in relation to set tasks or with regard to the number of tasks completed by the employee; or in relation to the volume of work completed by the employee.

1.2 *Pensionable Earnings:*

Pensionable earnings are the earnings on which contributions to NAPSA are levied. For a member whose earnings exceed the threshold, pensionable earnings are all his earnings in a given month that are less than the social security ceiling.

1.3 *Social Security Ceiling*

Social Security Ceiling in any year is the lowest level of earnings on which no contribution to the scheme is computed. Contributions are calculated on all earnings less than the ceiling, while earnings at or above the ceiling are not considered.

The Director General shall publish the ceiling for use in computing contributions based on earnings from the first day of January of the following year.

2.0 *Rectification of improper attribution of earnings*

Where an employer or self-employed worker has altered the pattern of payment of earnings to avoid or minimise payment of contributions, the Authority may deem such payments to have been made in payment periods which correspond to the work or services provided by the worker and levy contributions accordingly.

3.0 Calculation of the Social Security Ceiling

The Social Security Ceiling in effect through out any year is equal to four times the National Average Monthly Earnings computed by the Central Statistical Office for the second quarter of the previous year.

NOTE:

1. This table provides guidance on how to calculate contributions for employees paid monthly at intervals of K20 for purpose of convenience only.

Most often the amount of employee's total pensionable earnings on which contributions are calculated will be a figure within the interval. The amounts of the employee's and employer's share shall be calculated respectively as five percent of the employee's total pensionable earnings.
2. Earnings and contribution amounts are NOT to be rounded off to the nearest Kwacha before applying the percentage.

NOTE:

1. This table provides guidance on how to calculate contributions for employees paid WEEKLY at intervals of K20 for purpose of convenience only.

Most often the amount of employee's total pensionable earnings on which contributions are calculated will be a figure within the interval. The amounts of the employee's and employer's share shall be calculated respectively as five percent of the employee's total pensionable earnings.
2. Earnings and contribution amounts are NOT to be rounded off to the nearest Kwacha before applying the percentage.

NOTE:

1.
This table provides guidance on how to calculate contributions for employees paid WEEKLY at intervals of K20 for purpose of convenience only. Most often the amount of employee's total pensionable earnings on which contributions are calculated will be a figure within the interval. The amounts of the employee's and employer's share shall be calculated respectively as five percent of the employee's total pensionable earnings.
2. Earnings and contribution amounts are NOT to be rounded off to the nearest Kwacha before applying the percentage.
